PAUL PRENTICE MAKES SWEEP OF SNOWMOBILE MEETS

Minden's 16-year-old speedster of the snowmobile track Paul Prentice has been winning everything in sight this past winter. Paul has collected 17 trophies in all.

This young daring driver of the frozen track has raced in Barrie, Honey Harbour, MacTeir, Coboconk, Peterborough. Here in Minden he was over-all Champion at the Winter Carnival and last weekend travelled to Bobcaygeon to win all the silverware. In Bobcaygeon he was in a class by himself, as he outdrove the older drivers with skill and endurance, winning four races the B-modified, C-modified, D-modified, 600cc and the open race 600cc, to win the Kawartha Lake Tourist Association trophy.

Paul learned much of his skill from his father Bill Prentice, who is in the snowmobile business, having the dealership for Ski-Doo. When Snowmobile racing first became popular, Bill Prentice was a pretty fair racer himself, winning many races around the district. Now Bill, lets his son Paul win all the laurels.

Paul takes to the track once more on the professional track at Mosport on March 2nd - 3rd. This will be one of the biggest snowmobile events of the year, and should be worth travelling down to see.

It is a great privilege to have a young racing enthusiast here in this community to carry the Minden banner to all parts of Ontario.

MINDEN FIGURE SKATING CLUB WINDING UP SUCCESSFUL SEASON

The Minden Figure Skating Club is drawing to close another successful skating season. This Saturday the skating lessons will be held here in Minden, next Saturday will conclude the skating season for this year.

The recent Carnival held by this skating club, called, "The King and I" was a good success. The Carnival had some 20 numbers, including solo numbers by Mary Welch of Minden and Patsy Gillogly the Club Professional.

The Club was not favored by good weather, the evening was extremely cold, however some

three hundred people braved this to see their children skate.

President Mrs. Libby Griffiths and executive worked extremely hard to organize this Carnival, much work went into props, costumes sound and lighting. The skaters of the Minden Club have improved greatly over the last three years under the guidance of Mrs. Patsy Gillogly. A Carnival such as the one held here is a large undertaking for a skating professional.

Master of Ceremonies Mr. Norm Maidens did a big job the night of the Carnival, keeping the audience informed and the numbers on time.

This paper on behalf of the parents concerned with the club would like to give all those involved in this successful season, a vote of thanks.

UNIT C OF THE U.C.W. WILL HOLD RUMMAGE SALE IN APRIL

April 27th is the date set for Unit C's rummage sale. It will be held in the United Church basement Saturday. Anyone wishing to donate clothing for this sale, please leave same at the Minden Bowl or contact Ruth Greir 121W and we will pick up donations.

MINDEN EDGE LITTLE BRITAIN IN BANTAM PLAY-OFFS

The Minden Bantams after eliminating Coboconk in the group finals, now are in the OMHA Play-downs with Little Britain. In the opening game of the best of three series the locals edged the southern rivals 5-4.

The game was played here in Minden on Friday evening, February 23, before a good home town crowd. It was an exciting game, with the visitors leading at the end of the second period 3-0.

The third period the Minden team came out to win, and showed everyone in the arena, that with a little desire, the locals are hard to beat.

Lee Bull fired the winner in the last minutes of play, as the Minden club was applying the pressure. Other scorers were Jeff Campbell with two, and Bev. Hicks with two. Bill Leary figured in on three assists.

WORLD DAY PRAYER

World Day of Prayer is to be held in the Anglican Church Friday March 1st at 3 o'clock p.m. Everyone welcome to attend.

BELL SPEAKER TO ATTEND ROTARY HERE

Miss Ann Barwell from the Bell Telephone's Public Relations Department will be guest speaker at the Minden Rotary Club on March 25th.

Miss Barwell is an expert in her field, giving a talk and showing slides and music of highlights from 1900 to 1968, with extra slides on the advancements being made by the Telephone System.

FISHING HIGHLIGHTS

From all reports fishing in the area has been poor, however some good catches are being made. Bernie Trepanier an ardent fisherman from Minden told the Progress that he has only been skunked once this winter.

KINSMEN ANNIVERSARY HELD

FRIDAY EVENING VERY SUCCESSFUL

The Kinsmen celebrated their Forty-Eighth Anniversary on Friday evening, February 23rd, at Bonnie View Inn. This was a dine and dance evening with some comedy thrown in. The Kinettes and Rotarians and wives were guests.

Head table guests included the President of the Minden Rotary Club and his wife, Mr. and Mrs. Joe Dollo; MPP for Victoria-Haliburton, Mr. and Mrs. Glen Hodgson; Deputy Governor and his wife, Mr. and Mrs. Robert Fry, of Oshawa; Governor and his wife, Mr. and Mrs. Clark Pepper of North Bay; Vice President of the Minden Kinsmen Club and his wife, Mr. and Mrs. Andy Mackenzie; President of the Kinsmen Club of Minden Mr. and Mrs. Donald Crowe. Absent from the head table was MP of Haliburton Mr. and Mrs. William Scott of Kinmount.

Some seventy-five guests were on hand for this annual birth-day celebration, and everyone

enjoyed themselves immensely. Mr. Doug Pritchard conducted a Chinese Auction after dinner and the winner was Mr. Bob McKenzie of the Evergreens Resort, Minden.

Past President Lyle McKnight thanked the Head table guests for their attendance and speeches. The Monthly draw was held and winning the \$100.00 was Mr. Reg McCluney of Kinmount. Winning the \$50.00 was Goldie Walker of Minden.

Many special dances were held and prizes won. Entertaining with some fine music was Bill Payne, Joe Peacock, William Jackson, Eldon Deacon and Norm Graham; these boys called themselves Lyle's Little Men and did a fine job. All in all it was a fun filled evening.

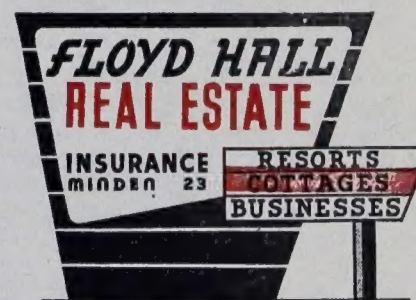

THURSDAY SMILE

The reason many people don't live within their income is that they don't consider that living.

1968 ROAD MAPS NOW AVAILABLE

Evenings 252W

HERE AND THERE

by FENWICK FINCH

Well, be kind to Finch didn't last too long and in a way I'm glad — these complimentary letters etc. were starting to spoil my image. However, after the last week's mail following the publishing of "Mike Morgan's" column from the Miami Herald, Florida, things are back to normal.

"Chester" come up with the expected letter — I'd like to know where he "scrounges" his paper for he ain't on the subscription list.

* * * *

My readers no doubt will remember the poem on "pollution" that appeared in last week's Haliburton Echo. Amongst the "religious tracts," "death to the drinker" etc. etc. I got a copy of this poem with a couple of the verses marked and a few words changed and added — it was of course unsigned.

Normally I go along with these things but this piece of garbage was so steeped in implication that I'd like to make whoever sent it a deal.

Here's the deal — if the sender will crawl out from under his or her rock and sign a note saying they sent it to me I'll use it — the readers are entitled to give credit where credit is due. Is it a deal?

* * * *

Some little time ago I received a little story from a reader who just signed the note "unsolicited" I'm glad they put that on the letter — I've been accused of almost everything but "soliciting" is not one of them. Here is the story. The reason I'm so late with it is because I put it away so that I would know where it was and I wasn't able to find it again until today.

"Psychiatrist: Are you troubled by improper thoughts?
Patient: Why no, Doctor. To be perfectly frank, I RATHER ENJOY them!"

* * * *

We have a lot of loose dogs around town — that doesn't sound quite right — maybe this is better — we have a lot of dogs running around loose. Either way, if we have a dog by-law and a dog catcher neither one seems to be in effect.

* * * *

Snively will be glad to know that some more work has been done on the "Minden Centennial Project - plus one." In the extremely cold weather you can't expect too much, but, things are progressing in the right direction.

* * * *

There are still a great many nice comments about the skating Carnival of a couple of weeks ago. Those who missed the show should feel disappointed and, no doubt they do. The star of the show was undoubtedly "Georgia Girl". You'd have to see it to believe it — it was nothing less than "poetry in motion" and, ye gods, what motion.

* * * *

The specialties were all done professionally. John Crawford, who played the part of the "King" deserves special mention, he has only been figure skating a little over a month. I understand, though, that when he was three and a half years old he skated the length of Mountain Lake.

* * * *

Well, we are almost out of space until next week. Until we meet again, think on this.

"Insecurity is suddenly coming down with a severe case of whooping cough just after you have taken a large dose of Ex-lax."

* * * *

Fenwick

DONOVAN ANNIVERSARY

Mr. and Mrs. George Donovan celebrated their fiftieth. Wedding Anniversary in Toronto st weekend. This couple were married at Winnipeg February 23 and after his retirement from Avro at Aurora they moved to take up residence in the Langdon home. They have three children, Dr. Ross Donovan of Toronto and Mrs. Bob McBrien (Ruth) of Boskung, Mrs. Clifford Keene (Marion).

The family enjoyed a dinner party at the Ross Donovans home in Toronto on February 24th. Sunday afternoon there was an Open House for friends and relatives at the son's home and over 70 came to congratulate the happy couple, the bride of fifty years wearing a gown of pale blue lace and corsage of yellow roses, the grooms boutonniere was the traditional white carnation.

Telegrams were received from Prime Minister Pearson, Governor General Michener, Rod Webb M.P. as well as many cards and gifts from near and far. Mr. Donovan had a very surprising telephone call from his 2 sisters from Regina and a sister-in-law from Sudbury.

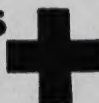

The happy couple are in fairly good health and this village adds our wish for their continued happiness.

PLACES OF HEALING — PLUS

Hospitals have long been known as "places of healing". Their history is a long and illustrious one, pre-dating by many centuries the birth of Christ. The modern hospital so often taken for granted in many parts of the world has a heritage that stretches back through the ages to the days of ancient India, Rome and Greece. The story of hospital development has often been a tale of self-sacrifice, humanitarianism and service to the suffering.

The modern hospital is more than a haven for the sick and the injured. Hospitals today are often the focal point of community health, dealing in diagnosis, therapy, prevention of disease, education and often related social services. Combining the miracles of modern medicine with the exposition of knowledge, today's hospitals make available the best of medical care. They are also places of research, where men of medicine continue their unending quest to add to medical knowledge. As well they are places of learning — for the doctor, the nurse, the technician and many others.

IGNITES SPARK — WE HOPE!

With so many Minden people visiting the Bobcaygeon Winter Carnival on the weekend, we feel sure a new spark has been ignited. Everyone we talked to thought the Bobcaygeon caper was well organized, entertaining weekend — with many interesting program features.

The snowmobile racing although not on as interesting a track, as we have in Minden, was viewed well from a spectators point. The grandstand was certainly a viewing point, not only for the snowmobile racing, but for other activities as well.

For my money we thought the highlights of the Carnival were the Arctic Sled Dog Races and the Sky-Diving exhibition.

The Dog Racing is unique — something the people from the city and even north of us, never see. The effect of this event blends in perfectly with Winter Carnival atmosphere. Bobcaygeon managed to have eleven teams entered in the races, two of these came from the USA.

The Sky-Divers came from Trenton, free of charge. These fellows put on a thrilling exhibition, and come as a big feature to any Carnival.

Over the weekend the Carnival committee had fifteen teams of horses, running steady with hay rides. This was extremely well organized, making some 2,300 trips. The snowmobile rides were another big success, handling 2,600 rides.

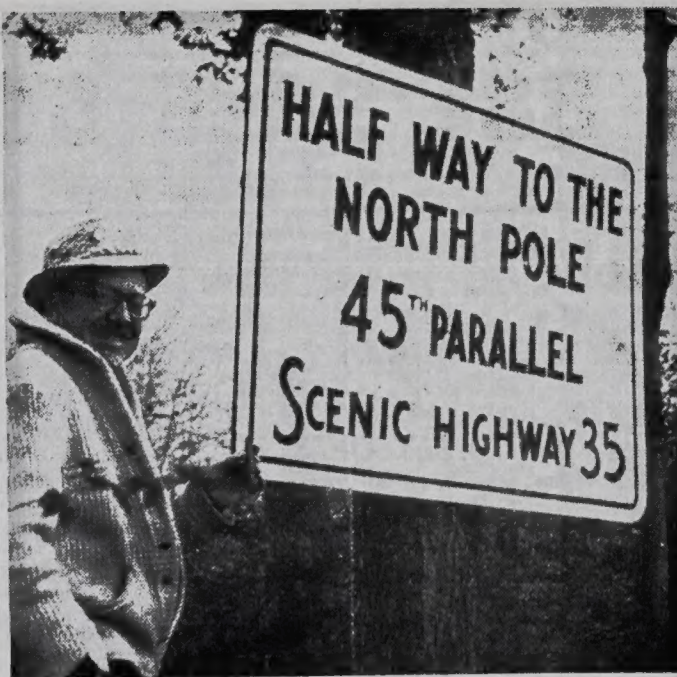

Between the exhibition hockey game and the skating program, some 1,400 people paid admission. At the gate, 8,000 people came in through the turn styles. These figures point to a financial success — making our Carnival look like an amateur hour.

We might point out that with such an interesting program, as Bobcaygeon had, financing is no problem. This Carnival is completely self supporting, with no financial support coming from the merchants.

We talked to many of the officials in Bobcaygeon on the weekend, their answer to our question. "What makes the Bobcaygeon Carnival tick, so well?" Their reply, was simple. "One thing", they said, "a good program, well organized is necessary. Features in this program must be quite different, and of the exciting nature. Events to keep everyone busy, so the people are not just walking around wondering what to do next, is a must. The sleigh, snowmobile and airplane rides were the answer here. Cooperation among the towns people is a must. The people in Bobcaygeon work hard, and we have plenty of help. "The one big feature over the Carnival in Minden," they said, "our activities are all in the one area." These comments fell true to form with everyone we talked to.

It is the old story here in Minden, if we are now going to compete for money, from outsiders, we need the recreation facilities and the programming to attract the crowds.

Bobcaygeon is not much larger than Minden — they competed against the Marti gras, held the same weekend in Lindsay. Facilities, help and programming was their success story. We feel their success may have ignited a spark, in those from this community who had a good time at the Bobcaygeon Carnival.

"HALF WAY TO THE NORTH POLE"

This little story could be a "Perry Mason" set up. "The Case of the Missing Sign."

This sign — "Half Way to the North Pole" was the most photographed tourist attraction we had. Located at Hart Lodge, people were stopping day after day to take a picture of it. About a year ago the sign was stolen and was found almost a mile away at the Taylor Homestead.

The sign was returned, then stolen again and has never been seen since. The "Earl" of Crawford would sure like to get it back — no questions asked.

How about it — bring it back and let the rest of the people enjoy it. What good is it hidden away? By now you must be too frightened to leave it around where anyone could see it. Fenwick is seen in the photo above.

"A JOURNALIST'S JOTTINGS"

By Ross Leslie

Right now the first magazine that comes to my mind is the elite "National Geographic Magazine." It possesses the very unique asset of possessing no mistakes. This is no accident, of course. Of the magazine's "seven guiding principles," number one states "Absolute accuracy." The "National Geographic" is not a slouch when it comes to circulation. According to ABC figures that I have, it sports over four and one-half million copies. According to these figures, "Look," with over seven and one-half million, out-competes renowned "Life," by about three hundred thousand. "Reader's Digest," is credited with just under sixteen million. However, bear in mind that "Reader's Digest" is not a weekly publication.

There is usually not the deadline pressure on a magazine, that very often exists with a newspaper. This can allow the journalists time for a fuller in-depth treatment. It also helps to permit the printers to weed out the insidious "typos," along with the help of the proofreaders. Since magazines normally utilize "better paper" than newspapers, photograph reproduction is usually

much superior. However, you will note the fine photographs in this newspaper. I consider many English publications to be well printed. Such as "Tape Recording Magazine," "The Meccano Magazine," and "The London Illustrated News."

Be watching for us again next week.

MUSEUM COMMITTEE MEETS

For some time a number of citizens in various parts of the county has shown interest in establishing a museum in the area. With this in view, the Rotary Club of Haliburton purchased the Reid house which adjoins the Rotary Beach property. Later the Reid property was donated to Dysart Municipality to be used as a museum.

A committee, appointed by the Dysart Council, held its first meeting on Monday February 12.

Mr. Ronald Curry, who has been very active in the project, explained what had been accomplished to date, items acquired, etc.

The first executive will consist of — President Mr. Stuart Baker, Vice President Mr. Russell Dart, Secretary Mrs. Brant Sisson, Treasurer Mrs. Frank Andison.

Other members of the committee Mr. Lloyd Coneybeare, Mr. Lawrence Morrison and Mr. Frank Hodgson.

After some discussion it was decided the museum would be of pioneer type with a tentative name "Haliburton Highlands Pioneer Museum".

Membership in the organization will be \$5.00.

Mr. Ronald Curry is to contact Mr. J. Styrmoe of the Museum Branch re a meeting with him.

Receipts are to be issued for all items whether donated or loaned (for a period of time specified by the owner).

Anyone having items of interest which they would be willing to share, please contact the secretary or any member of the committee and, when forms are available, arrangements will be made for collection of same.

LETTER TO THE EDITOR

Parliament Buildings,

TORONTO 5, Ontario

February 9th, 1968

Dear Mr. Greir:

May I take this opportunity to thank you for your recent publicity on behalf of the adoptable children in the care of your Children's Aid Society.

This service, which you so freely offered, is of very great value to the children in your area who are waiting for new parents. It also engenders in the public interest in the work being done by the Kawartha-Haliburton Children's Aid Society. It has been found that this means of acquainting the public is of the greatest importance as the resulting homes found for adoption and foster home care meet the needs of the children who are the responsibility of your Children's Aid Society.

Would you please convey to all who have taken part in this project our most sincere and heartfelt thanks and be assured of our deep appreciation.

Yours truly,

John Yaremko,

Minister of Social and Family Services.

CAMPBELL FIRES THREE — MINDEN BANTAMS WIN GROUP FINALS

It was like being in Grenoble, for the world hockey title, watching the third and deciding game of the group finals, between Cobocok and Minden. Cobocok played host, watching a game in their band box is one thing, but on a cold evening, it is another.

From the opening whistle, it was a fast exciting game, and everyone from Minden, and there were at least thirty ardent fans, knew it was going to be a cliff-hanger all the way.

The game was only one minute old when Terry Bradimore of Cobocok, fired a shot from the corner that beat Moxam on a reflection. Only five seconds later, Jeff Campbell scored his first of a three goal performance. From this face-off Cobocok forced the play, and scored two goals from the sticks of Mike Jamieson and Hugh Magee.

In the last five minutes of play, in this period, with the locals down two goals, Minden pressed hard and scored two to tie the game. Bill Little set up Bev Hicks, who made no mistake. Jeff Campbell counted for his second when he stole the puck and fired a blistering drive past Olsno in the Cobocok net.

The second period was a close checking frame, with no scoring. Minden out-played Cobocok in

this period, but couldn't beat the fine goaltending.

With the game tied 3-3 going into the third stanza, coach Campbell had his boys primed up for victory. There was no question, who was the better club, as Minden outplayed Cobocok from the drop of the puck.

At the 3:30 mark Jeff Campbell scored his third, rounding out his hat-trick for the evening. Royce Miller teamed up with Bev Hicks, with the latter scoring his second of the night. At the 7:25 mark Bill Leary took a pass from Bev. Hicks and made no mistake as he picked the right hand corner.

The first line of Hicks, Campbell and Leary were the big guns in this series, producing most of the scoring punch.

In the second game of this series, played on Thursday evening in Cobocok, Bill Leary picked up three goals, Jeff Campbell scored twice and Lee Bull fired a single.

PEE WEES WIN FIRST GAME AGAINST OAKWOOD

The Minden Pee Wees are very much alive in the OMHA with a 2-0 win over Oakwood. The game was the first of a double header on Friday evening here, February 23rd.

John Welch and Bill Jackson were the big guns for the winners, playing a hard checking game both ways. John Welch scored both goals with Jackson setting up the plays.

MINDEN DROP TWO GAMES IN LITTLE NHL SERIES "C"

On Saturday the Minden Bantams played in Haliburton in the Little NHL Series "C" competition and dropped games to Haliburton and Fenelon Falls.

In the first game the locals met the Haliburton Club and lost a close game by the score of 4-2. Wilson of Haliburton scored two, while Botting and Bain picked up singles. Scoring for Minden was Bev. Hicks and Jeff Campbell.

In the second game the Minden Club fell back into their early season style of play and came out on the small end of 9-1 score. Bill Leary picked up the only Minden Marker.

SPORTS

WITH BOB BEENEY

Haliburton Minor Hockey played host to the Little N.H.L. "C" Bantam and Novice teams for the Northern District last Saturday. Four teams competed in each class with the Bantam and Novice teams from Minden being knocked out of competition by losing both their games.

Haliburton and Fenelon Falls defeated the Minden Bantams by 4-2 and 9-1 scores and Fenelon Falls and Bobcaygeon defeated Minden Novices by 5-2 and 2-0 scores.

Minden scorers in the Bantam games were Bev Hicks, Jeff Campbell and Bill Leary. In the Novice games Minden scorers were Lorne Snell and Junior Beeneey.

The tournament was well handled by Haliburton and every convenience was offered to visiting teams and spectators. A delicious chicken dinner was served in the auditorium and all of the teams took advantage of it.

While I'm on the subject of Little N.H.L. hockey I would like to comment briefly on a letter to the editor by Mrs. Grace Simmons of Irondale. She is one of Kinmounts most ardent hockey fans and is out to most of their games whether they are in Kinmount or in some other town. I would agree partially with her as far as the classifications of towns due to the population factor.

In certain areas the surrounding distinction of towns are much more populated than others even though the towns could be of a similar size. I agree that it is difficult for a small town with a sparsely populated surrounding district to compete with other towns in a heavier populated area. I have mentioned before that it is unfair for some towns, and that another division should be created for those towns.

I would have to disagree with Mrs. Simmons as far as her comments go when she criticizes the managers and coaches of the teams.

Unfortunately there are some officials who perhaps would do most anything to win even if it is against the rules of the league they're playing in. These people definitely make up a very small portion of the dedicated people who try to make the principles of minor hockey work in the best interest of the kids.

No matter how many rules are made we can expect that there will be some people who will break them. We can only hope that these people will gradually be weeded out so that all teams will be treated fairly.

The Minden Bantams defeated Little Britain on Friday night to take a 1-0 lead in the best of three playoff series. After being down by a score of 3-0 they fought back to squeak a 5-4 win. Minden scorers were Jeff Campbell with two, Bev Hicks, Bill Leary and Lee Bull with one each.

Their next home game if the series goes three games will be on Friday night at 8:30 P.M.

In the Pee wee series Bob Dudman registered a shutout when the Minden team downed Oakwood by a 2-0 score in the first game of a two out of three playoff series. Oakwood forced the play throughout the game but Dudman was unbeatable. The remaining games of the series are in Oakwood.

LET ME EXPLAIN... CONFEDERATION LIFE'S DISABILITY BENEFIT

Time off from work, through disability, is no laugh. In fact it's downright unpleasant. There are mounting bills for medical services and medicine, worries over the cost of day-to-day living without an income, and uncertainty about the future.

At a time like this, you need a special kind of help — financial. With a Confederation Life Disability benefit you can replace part of your lost earning power.

For more complete information on this, and other Confederation Life policies, telephone me or mail the coupon. I will welcome the opportunity to talk them over with you, in your home or office.

A NURSE IN EVERY HOME

Who needs it? Home Nursing training, that is. What with all the medical health programs planned or already in existence, there hardly seems to be any point in learning to treat illness in the home. Might as well check into the hospital at the first sign of a sniffle, ache or pain (after all, it's practically free, isn't it?).

This sounds logical until one realizes that these new services are the very things that are going to stretch already overtaxed hospital facilities to near the breaking point. And whether the services are free or not won't matter very much, if you can't get into a hospital because there's

already a waiting list as long as a \$50 roll of surgical gauze. The recent report of the Royal Commission on Health Services has predicted a need for ever-increasing numbers of trained personnel in the health field. The Commission emphasized that individuals and families will have to assume the responsibility of caring for themselves in all but cases of serious illness.

In addition, Emergency Health Services has stated that in case of disaster, one person in every home, proficient in Home Nursing is an absolute necessity.

It is with these very real needs in mind, that St. John Ambulance has recently stepped up its Home

Nursing program. Last year over 6,000 Canadians took this training.

Miss Margaret M. Hunter Reg. N., Chief Nursing Officer for St. John Ambulance, says the Association is more concerned about patient care in the home today than ever before.

"Although new hospitals are being built," she says, "there are still not enough to meet the needs of our population. Therefore, it is most important that we conserve hospital beds for those who need them most, the acutely ill."

Miss Hunter says she hopes the new "Patient Care in the Home" manual published by St. John will stimulate increased interest in home nursing in Canada.

An easy-to-read, information-packed supplement to the Association's Home Nursing courses, it tells the homemaker how to do everything from preparing an ice pack to coping with emergency childbirth.

It is filled with simple procedures that make caring for an

invalid at home easier for both the patient and the homemaker.

For example, did you know that pills for small children should be crushed between two spoons? — that beds in the home cause discomfort to both patient and homemaker because they're too low, and that raising the bed just a few inches with wooden blocks or tin cans filled with sand will make a big difference in convenience and comfort? — that a simple, cardboard cradle made from a box with two sides removed will protect the patient from bedding which can weigh very heavily on the feet after a few days.

The manual is available to the general public through local St. John branches, but Miss Hunter emphasizes that it meant to supplement, not supplant the Home Nursing course.

A St. John Home Nursing course takes two hours a week for eight weeks. It helps a mother protect herself and her family against accidents; teaches her to recognize early signs of illness, shows how to prevent the spread of infection, and teaches her simple nursing skills.

HALIBURTON COUNTY PUBLIC LIBRARY BOARD MEETING

Duly called meeting of the Haliburton County Public Library on Thursday February 8th 1968 at 8 p.m. with P. Neville, E. Bursey, E. Hewitt, R. Brohm, D. Russell and N. McNeill, Secretary present.

Moved and seconded that the minutes of meetings, November 23rd and December 7th be adopted as read. Carried.

A resume of past activities and procedures was given by N. McNeill the board's secretary.

Moved and seconded that Mrs. P. Neville be our Chairman for 1968. Carried.

Moved and seconded that Mrs. E. Hewitt be our representative on the Regional Board for 1968. A letter of Authorization be sent to the regional director. Carried.

Moved and seconded that this board go on record as authorizing Mrs. Hewitt to present the following recommendations to the Regional Library Board on February 17th if possible: —

A meeting of the librarians of those boards which appoint a member to the Regional Board to consult with the Regional Librarian about the future development in this System which means much to us all.

An encouragement grant should be paid to Haliburton County Public Library Board as to some other boards because we have 8 branches and yet lack population as a basis for high revenue. We have great distances between libraries and lack of funds sufficient to meet our per person costs. No grant equals a discouragement grant.

A letter be duplicated for distribution to Regional Board members at its February meeting. Carried.

Moved and seconded that the Board hire Mrs. Helen Leighton as our Dysart Branch Librarian as of February 13th with the understanding that the first three months are probationary in nature. Carried.

Moved and seconded that our librarian be authorized to pay our branch librarians for up to six hours per week on the basis of hours open with the exception of Minden and Dysart being open up to 15 hours per week. Carried. (This is left to the discretion of local committees).

Moved and seconded that the budget submitted to County Council January 1968 be accepted as a guideline for 1968 and that Mr. McNeill be authorized to implement this budget. Carried.

Moved and seconded that during 1968 our board meet on the first Thursday of each month with the exception of July and August. Carried.

Moved and seconded that cheques no. 672 to 739 and no. 1 to 27 inclusive totalling \$3,132.46 be approved as expenditures of the board. Carried.

WOODS, WATERS AND WILDLIFE

By James Woodford

Many of those who are interested in the outdoors would be intrigued by the possibility of seeing the landscape of Ontario as it was before the white man arrived.

However, this is not possible, because man has drastically altered the broad aspects of nature in this province. Yet even an approximation of unaltered nature has its appeal.

Might we not ask, however, why this interest in the way things once were should claim our attention? It is surely more than idle curiosity. The kinds of animal and plant life that previously flourished are of interest to us, because some species that were abundant, like the passenger pigeon, are now extinct; others like the bald eagle and peregrine falcon are fast disappearing from the province; and the distribution of others has changed markedly.

The relationships among different species under completely "natural" conditions (with Indians present) would be fascinating to study and could give us a basis for a greater insight into the artificial relationships under which these species now operate in a man-altered world.

We might find ancestral strains of cultivated plants that would be of important economic value to geneticists. Or antibiotics

might be discovered that we would find helpful in medicine.

The possibility of aesthetic appreciation and spiritual inspiration in an altered natural world would be a supreme value to many of us.

Obviously, this dream cannot be fully realized, yet fractions of it still can be. Small pieces and fairly representative samples of primitive natural landscape are still available, although mostly unappreciated as such by the general public. To many people preserving a natural area seems like subtracting land from potential human "usefulness."

However, it is the view of The Federation of Ontario Naturalists that many such samples still exist in a more or less primitive state; that it is worth preserving them for the long-term good of humanity; that public appreciation of their value for at least some of the reasons suggested above will grow; and finally that acquisition is urgent before the remnants of such areas are lost forever.

**RED CROSS SERVES YOU
EVERY STEP OF THE WAY**

HIGH COST OF POLLUTION

Pollution of air, water and soil costs each person in Ontario about \$72 per year — about \$500,000,000 — according to the Federation of Ontario Naturalists.

Air pollution costs Ontario residents \$25 per capita per year, water pollution \$22 and soil pollution \$25.

Since 1956 a total of \$1,250,000 has been spent to combat water pollution, reports the Ontario Water Resources Commission. addition industry has spent \$110,000,000 on facilities for treatments of its wastes.

The costs are for sewage treatment and disposal, water treatment, and other costs such as expenses for cleaning buildings from soot stains and the extra costs of travelling further to find a clean swimming area.

These are the more obvious penalties we are paying because of the pollution of our environment — but some less obvious affects may, in the long run, have more serious consequences.

For example, diseases attributable to air pollution are bronchial infections, cancer and emphysema. Emphysema is the fastest growing disease in North America. There is apparently no cure for it. Oxygen bearing cells in the blood become contaminated and less oxygen is absorbed. The victim becomes short of breath and the strain usually leads to a heart attack or a collapse of the lungs.

Air pollution may be a major factor in lung and skin cancers. In carbon monoxide there are nine pollutants attributable to carcinogens — cancer causing compounds.

We must initiate a meaningful program dedicated to the solution of problems that involve conflict between man and nature. The Federation of Ontario Naturalists recognizes that man must alter his environment. It denies, however, that pollution, degradation of the landscape and the fouling of the atmosphere must be the by-products of progress. We must use our sophisticated technology so that our life is enriched by quality as well as quantity.

ROTARY CORNER

The Rotary column comes back after a couple of weeks absent. We have a little information to bring everyone up to date on the happenings of Rotary in Minden.

First of all the dates for the Rotary Carnival have been set. This years big caper will take place on Wednesday and Thursday, July 31st. and August 1st. This Carnival is an annual event, with a good parade, games in the Arena and amusements.

The Rotary Club are busy making plans for the Tri-County Meeting of the Haliburton, Fenelon Falls Clubs here on May 13th. This years hosts are of course the Minden Club, and they expect to hold this special meeting at Lacarno-on-the Lake.

The Club have a drive on at present for new members — over the next few weeks the executive are making a special effort to bring in expert speakers. The Minden Club spend thousands of dollars in Minden each year, on many different projects. It is felt that more members are needed to carry on the work. This is a service club which does a big job here, and should be supported by a large membership. If you are keenly interested in spending a little time working for your community, there is a place for you in Rotary.

It is interesting to note that over the past year, the following have perfect attendance at the meetings: Joe Dollo, Vinton Loucks, Fraser Johnson and Alan Grier. Absent only 1 to 4 times were Chas. Brandon, Percy Brintnell, Harry Cowan, Harold Morgan and Walt Wideman.

That's about all for this week.

ANGLICAN CHURCH NEWS

INSTRUCTIONAL EUCHARIST

Many people have attended Services of Holy Communion in the Anglican Church as long as they can remember, and each year, in every Parish, more people are Confirmed and go to this most important of Services. Wherever they go, they will see and hear the same form of Holy Communion Service in every Anglican Church. The priest makes the same movements, the prayers are identical, the Congregational joins the Clergy and Choir in the same way everywhere. Why does the priest, at each Communion Service from the day he is ordained, follow a rigid pattern into whose intricacies he has been trained? Why do the prayers and supplications come just where they do? What part do the Servers have in helping the priest? When his back is towards the Congregation, what exactly is he doing? If you have ever wondered about these things, come to St. Paul's at eleven o'clock, or St. Stephen's, Boskung, at four o'clock on Sunday next, the third of March and it will be explained to you. The Rector intends to have an instructional Eucharist at these Services. In this former Parish, the Church of Emanuel, Richvale, such a Service was held, and it was such a success, and drew so many favourable comments, that he feels that many of his Parishioners might gain a great deal of knowledge and a deeper understanding of the Service if it is repeated. To accomplish this, a commentator describes each part of the Service as it takes place, Mr. Lloyd Johnson will undertake this task, and it is hoped that as many of the younger members of the Congregations as possible, as well as the older people, will make an effort to attend this most important Service.

SIDESMEN'S SUPPER

The sidesmen of St. Paul's, who were lected at the January Vestry meeting, are invited to a pot-luck supper on Monday,

March 4th, at 6:30 p.m. together with their wives, or if they are not married, and would like to bring along a girl or boy friend please do so. They will all have received their letters from Mr. Earl Hewitt, the Chairman of the Sidesmen, and will know their rota of duties — not too heavy if everyone pulls their weight — Mr. Hewitt is asking for a good turn-out, so that everyone may get to know each other, learn what their duties are, and have an enjoyable evening at the same time. Please don't let him down, PARTICULARLY THE YOUNGER ONES, because there are always gripes about there not being anything to do in the evenings in Minden. Why not use the Church Hall for a few dances etc? You don't have to be known as a square if you support your Church — .

ANGLICAN CHURCH WOMEN

The ACW held their monthly meeting on Tuesday, February 20th which was chaired in the unavoidable absence of the President, Mrs. Illa Lytle, by Mrs. Anne Dawson, the Vice President. The ladies decided to hold a card party on March 20th at 8 p.m. so please keep that date free on your calender! There will be the usual tables of Bridge Euchre and Cribbage, good prizes and good food.

WORLD DAY OF PRAYER

All ladies of the Parish are reminded that the Service for the Women's World Day of Prayer will take place at St. Paul's Minden, on Friday, 1st. March at 3:00 p.m. This is an ecumenical service, and it is expected that many ladies from other denominations will be present. Therefore, let all ladies from St. Paul's who can possibly be there, form themselves into a friendly welcoming group to their sisters from other Churches, and let everyone who attends this Service come away from St. Paul's with a warm feeling of fellowship or, maybe, should be gal-manship with our Church!
